- Compact size: 18x33 (DxW) cm

Satisfaction indicator
- 94% satisfied users

Medical appliance
- Proven health benefits

Product highlights

Original Philips EnergyLight lamps
The EnergyLight features original Philips EnergyLight lamps producing light with all the intensity and quality of natural daylight. In fact, it can give you up to 10,000 lux, but without any unpleasant dazzle or glare. If you use the EnergyLight for just 30 minutes a day (there's no need to stare into the lamp all the time) at a light intensity of 10,000 lux, you'll notice an improvement in your energy level and mood after just 5 days'use.

On product user protocol

Adjustable angle
The appliance can be positioned at various angles as appropriate.

UV-free
The EnergyLight uses the full natural daylight spectrum. It meets European safety standards and feautures an UV-filtering screen. The EnergyLight is therefore completely safe to use.

Supported by the Medical Device Directive (MDD)
This device has proven health benefits, as certified by the Medical Device Directive (MDD).
